

# CROWDSOURCING

---

Stephen Mayhew, Daniel Khashabi

May 5, 2015

University of Illinois at Urbana Champaign

We tried many different baselines

1. Hubs and Authorities
2. Majority Voting
3. EM
4. EM with priors
5. Iterative Weighted Majority Voting
6. Singular vector approach
7. Simplified BP
8. Discretized BP
9. Tree-reweighted message passing
10. Spectral Meets EM

But the discretized BP looks pretty good.
